| Joint degree / double degree programme | No |
| Description/content | <p>The innovative Aviation Management Master's programme, offered since 2007, will provide you with all of the skills and qualifications that are necessary to boost your international career in different fields of aviation. The two-year, part-time study programme combines technical and operational know-how with broad management skills using state-of-the-art methods. Our lecturers—recognised experts—represent both academic institutions and leading companies in this industry. Due to excellent teaching and supervision, you will gain fundamental insight into the success factors in aviation and will have the opportunity to work on practical study projects of your own. Intensive seminar weeks will provide you with excellent supervision, while the study mode</p> |

will allow you to combine work, family life, and studies.

The Aviation Management programme is designed for students with a Bachelor's degree or a German "Diplom" degree in engineering or business and no less than one year of professional experience. Successful graduates will be well placed to work in the following fields: international airlines, airport authorities, air traffic control, manufacturing of aircraft and equipment, maintenance and service companies, and regulation of authorities on local, national, and international levels. Many of our graduates work for companies such as Lufthansa, Airbus, Siemens, and DHL.

Study blocks:

Business Administration and Management

Human Resource Management, Financial and Managerial Accounting, Corporate Finance, International Marketing, International Management, Supply Chain Management, International Law

Aviation Management

Principles of Civil Aviation, Aviation Engineering and Technologies, Civil Legal Framework of International Aviation, Air Traffic Management and Control Systems, Safety and Security, Airline Management, Airport Management, Manufacturers, Maintenance, Aviation and Society (Social Impacts of Aviation)

Management and Social Skills

Project Management, Leadership and Motivation, Negotiation and Presentation, Cross-Cultural Communication, Decision Making and Problem Solving Techniques
